STALICO®
GREEN POWER & ENERGY STORAGE

NEW

STALICO® SOLAR TOWER

This STALICO® light or camera tower is available with 3 integrated solar panels. An ingenious fold-out system guarantees the optimal absorption of solar energy.

Combined with one of our battery systems, this provides an amazing autonomy.

ECO

GR COMPACT HYBRID
ENERGY STORAGE

Hybrid power unit for light and camera masts.

SPECIFICIATIONS

- lower fuel costs, noise, and emissions
- equipped with a Kubota engine 3.2 Kw 1500 rpm water-cooled
- 19200 W / 11500 W
- battery pack: 8 x 200 Ah 12 V
- weight: 1184 kg
- dimensions: 191 x 66 x 130 cm
- contacts: CEE 16A 230V 3p

GR FUELCELL
INTEGRATED
ENERGY STORAGE

The GR FUEL CELL charges batteries automatically while its charging status is closely monitored. The fuel cell operates fully autonomously and can be specifically tailored to your individual needs. Start-up, charging, standby... This fuel cell does everything by itself. One worry less.

SPECIFICIATIONS

- power 125 W
- power after (operating hours) 83 W (6000 hours)
- rated voltage 12 V DC / 24 V DC
- consumption 0.9 l/kWh

GR SOLAR FUEL CELL GENERATOR
ENERGY STORAGE

NEW

The STALICO® Solar Fuel Cell generator is a compact system. A combination of a large fuel cell and 3 unfolding solar panels provides an all-in-one power source.

SPECIFICIATIONS

- power 500 W
- power after (operating hours) 400 W (3000 hours)
- rated voltage 24 V DC / 48V DC
- 3 x 330w solar panels
- tank skid 2 x 28L
- consumption 0.9 l/kWh
- dimensions: 192 x 120 x 120cm
- dimensions open : 192 x 330 x 190 cm

STALICO®
GREEN POWER & ENERGY STORAGE

GR WATTSUN
INTEGRATED
ENERGY STORAGE

GR WattSun is the fastest solution to deploy stored energy at any location. Four additional exchangeable packs can be stacked on top of the docking station. This is unique! Totally safe and user-friendly. These are neatly built into the STALICO® products.

SPECIFICIATIONS WATTSUN DOCK 2000

- 50 Hz
- 220 – 240 Volt
- 1500 Watt
- battery capacity: 1400 Wh
- IP33
- weight: 17,2 kg
- dimensions: 51x43x22 cm
- battery: Panasonic Lithium-Ion
- 600 cycli
- battery charging time: 4,5h

SPECIFICATIONS WATTSUN PACK

- battery capacity: 1600 Wh
- IP44
- weight: 16,2 kg
- dimensions: 51x43x22 cm
- battery: Panasonic Lithium-Ion
- 600 cycli
- battery charging time: 5h

GR ACCU SKID
INTEGRATED
ENERGY STORAGE

The unique ACCU SKID can be installed with 1 to 4 batteries of 200Ah including VICTRON charger/ inverter. To be used as energy storage or UPS system.

GR ACCUPACK
ENERGY STORAGE

Separate and portable energy storage.

SPECIFICIATIONS

- noiseless and 0% emission when in use
- equipped with 8 x 200 Ah AGM 12 V
- 19200 W / 11500 W
- average consumption when charging battery pack: 1680 Watt
- weight: 560 kg
- dimensions: 125 x 65 x 95 cm
- contacts: CEE 16A 230V 3p
